

"The Global Institute of Logistics (GIL) has designated Four Soft as the recipient of its Award of Excellence accreditation."

4S eLog

4S eLog is a web-centric warehouse management system for logistics service providers, designed to provide the core operational needs for global and domestic freight forwarding, transport, 3PL, 4PL and distribution companies.

4S eLog extends well beyond the capability of traditional warehouse and inventory management systems by integrating supply, fulfillment and partner collaboration into one enterprise service platform. It can also meet all of your operational, financial and customer requirements, thus providing a powerful tool with increased value to you and your customers.

4S eLog Features

- Logistics Management
- Multi-Warehouse and Multi-Client Management
- Customer and Vendor Relationship
- Order Management
- Inventory Management
- Transport Planning
- Bonded Handling
